EDITOR'S LETTER

Even though this issue is late and will not reach you during the holidays, I want to wish each and every one of you a Happy New Year. I also want to thank all of you for the support and for the help you have given me this year. It is so rewarding to work with a group of people who share, care, and are forgiving when things go wrong. I hope 1986 will bring you ALL the answers you have been searching for!

This issue contains a renewal sheet for those of you who have not already paid membership dues for 1986. If you have already paid, please pass this sheet along to someone you think would be interested. I am continually hearing from people who had no idea we exist and are excited to find out about our organization. Please help us spread the word.

Our "Christmas Offer" which was enclosed in the last issue was very successful. We also received many renewals from members. Many of you indicated on that form that you are interested in receiving a copy of the current membership roster. We plan to print this roster in April, and it will be compiled as a 1985-86 roster. Hopefully, we will have this printed and ready to mail by the end of May. Money from this project will be used to add books and/or microfilm to our library. As you know, we do not have a fund from which purchases for the library can be made, so any amount we make from this project will be a boost to our library. Even though you may live too far away to visit our library, all of us can gain from the additions to the library, because much of this material is used in Strickland Scene.

My special thanks to William B. Orr who used his computer to index this volume of Strickland Scene. I appreciate the time he took in doing this job. Because of illness, I was very late getting this issue prepared and mailed to Bill for indexing. Due to this, I did not have time to edit and type the queries many of you have submitted. I apologize and promise to try to get all of them in the first issue of Vol. 7.

My thanks also goes to Robert C. Stricklin for all of the marvelous material he is sharing with us (some of which is printed in this issue).

And thanks to all of you for making 1985 a memorable year. I look forward to hearing from you in 1986.

NEWLY LOCATED 18TH CENTURY HENDERSON-STRICKLAND BIBLE RECORD  
FROM UPPER FREEHOLD TOWNSHIP, MONMOUTH COUNTY, NEW JERSEY

Contributed by Robert C. Stricklin

Shown is the title page torn from the 1730 bible of ANN STRICKLIN HENDERSON, of Upper Freehold Township, Monmouth County, New Jersey, widow of SAMUEL HENDERSON, that was submitted with a deposition she made November 10, 1838 before THOMAS C. THROCKMORTON, a judge of the Inferior Court of Common Pleas in and for the County of Monmouth and State of New Jersey, in support of her application for a widow's pension.

ANN STRICKLIN (as her maiden name appeared in the deposition) and SAMUEL HENDERSON were married May 1780 by Rev. JOHN WOODHULL, D.D., with her bridesmaid EFFIE WILSON and JONATHAN CLAYTON his groomsman. The minister and two attendants were deceased at the time of her deposition.

ANN stated that the bible had once belonged to her mother. It would appear that at least the earliest entry, for AMEY STRICKLAND, Junr., was probably made at that time. Distinctly different scripts were used for each of the first two entries, which in part accounts for the variation in surname spelling. She further stated that the entry for THOMAS HENDERSON, their eldest child, was written by her husband SAMUEL shortly after THOMAS's birth. As ANN signed her name with an "X", and the script is similar for all the children's entries, it is likely all were made by SAMUEL.

ANN reported to have had nine children by her husband SAMUEL, of whom seven were then living in 1838 "as she hopes and believes", indicating it likely that not all were nearby. Only eight children were listed in the bible record shown, the last a month before ANN's fortieth birthday.

In a 1933 response in the file to an inquiry by ELIZABETH HENDERSON, 57 DeVee Street, South River, New Jersey, the government respondent recites from other sources that: 1. JONATHAN STRICKLIN, the brother of ANN, was living at the time of her marriage to SAMUEL HENDERSON; 2. One JOHN HENDERSON who was a resident of Leeds Point, New Jersey, in 1846, was no relationship to this family; 3. In 1838 SAMUEL's son-in-law, JOHN A. CLAYTON, aged about 57 years, stated that he married a daughter of SAMUEL and ANN (which one not identified) in February 1816 (or 1815 - carbon copy is unclear), that he resided then in Upper Freehold Township, and that ANN HENDERSON, SAMUEL's widow, had resided principally in his family for twenty years; and, 4. THOMAS HENDERSON, son of SAMUEL and ANN, died aged about 21 years.

ANN's deposition stated that SAMUEL entered service in New Jersey during July 1776 as a private in the militia, at and from which time he resided in Freehold Township until his death March 4, 1809. He served on alternate monthly tours during each succeeding year through 1781, under Captains HENDRICK SMOCK, BENJAMIN VAN CLEAF, WILLIAM VAN CLEAF and Colonel ASHER HOLMES in the New Jersey troops. After HENDRICK SMOCK retired and left command of the company, JONATHAN CLAYTON (presumably the same as was groomsman at SAMUEL's and ANN's wedding, and likely the father of their son-in-law JOHN A. CLAYTON) was appointed ensign, DAVID FORMAN was general in command, and ELISHA WALTON was major. SAMUEL's duties were to "guard the coasts and shores from the British and refugees". He was not known ever to have been engaged in battle.

At the time of his death SAMUEL was "seized and possessed of a small real estate in Freehold Township", which ANN in 1838 possessed in anticipation it would pass to her children. She had remained a widow, and was age 83 at the time of her deposition. Her claim for a pension was not allowed as she failed to furnish proof of service as required by the pension law under which she applied.

The bible record and ANN's deposition are located under SAMUEL HENDERSON's name in alphabetical order among the National Archives microfilm series, "Selected Records From Revolutionary War Pension Files". This material was located quite by accident while searching for data on another SAMUEL HENDERSON of the same period, a resident of then West Tennessee (in or near Rutherford County), whose daughter MARY HENDERSON married a JOHN STRICKLAND.

DESCRIPTIONS AND EXPLANATIONS OF PAGES 69 - 72:

*Editor's Note: Please forgive me for omitting the page numbers for 69 through 72. I was enrolled in a printing class (for fun) and we were required to bring our own projects to the class. One of my projects was learning to photograph documents and prepare them for printing. After cleaning the negatives, I made a metal plate from which these pages were printed. It isn't the best job in the world, but I enjoyed doing it. The will of Zadock Strickland was quite interesting because the copy we have in our files is difficult to read. It took quite a lot of time to clean up the negative so the finished product would be legible. I hope you enjoy these. -NJC.*

PORTION OF A MAP IN CONROE, TEXAS SHOWING WILSON STRICKLAND'S LAND

So many of you have expressed interest in the "oil suit" pertaining to the land of Wilson Strickland that I decided you might like to have a copy of the map showing the location of his land. For more information on this "oil suit" and the land in question, see: "The Strickland Oil Controversy" by Mrs. W. E. Nickels (Strickland Scene, Vol. 2 p. 51).

Pages 70 - 71:

WILL OF ZADOCK STRICKLAND, NASH COUNTY, NC, 1860

A copy of the original will of Zadock Strickland was contributed to our organization by Franceine Perry Rees. A typed copy of this will was printed in Strickland Scene, Vol. 5 No. 4, pp. 69 & 70.

MARRIAGES FROM THE BIBLE OF WILLIAM ANDERSON STRICKLAND

The Family Pages from the William Anderson Strickland Bible were copied and contributed to Strickland Research by Clara F. Gregory. This page was selected for printing because it was legible and because it had room near the bottom of the page for an explanation.

*Thanks to all of you who have contributed so much material for our files. I enjoyed my one night a week printing class so much I may decide to join again. If so, I will search through our files for other interesting documents. If you have anything interesting you would like to see in print, send me a good, clear xerox copy and I will see what can be done. -NJC.*

STRICKLAND LIBRARY

The following is a continuation of a brief listing of our document files. Some of the papers in these files are xeroxed copies and some are original papers or original abstracts. These files are continually expanded as material is donated by members. If you are interested in obtaining copies of any papers in these files, we ask you to cover the costs of making copies and postage. 25¢ for each 8 1/2 inch by 11 inch sheet usually covers the cost of xeroxing and part of the postage. Before ordering copies from these files, I suggest you check the contents pages (printed in SS Vol. 6 No. 2) of previous Strickland Scene issues. Much of this information has been printed in Strickland Scene. -NJC.

## ON THE HORIZON: INEXPENSIVE 100,000 VOLUME GENEALOGICAL LIBRARIES

### ON COMPACT DISKS FOR HOME USE!

The first quarter 1986 issue of Genealogical Computing describes some new developments in information storage technology that hold exciting prospects for genealogical researchers in the not so distant future. These technologies are coming available now, and their application to genealogical research is just a matter of time. The following items were noted by GC, among much more:

A 3M Optical Recording Project brochure about their "3M Erasable Optical Disk" stated: One such 3M disk can store 300-500 megabytes of data (equivalent to what can be stored on 700+ floppy disks) on a single side of their new disk; information can be changed or updated as easily as it can with a floppy disk; the low-power laser beam that reads the disk is all that touches the disk, virtually eliminating wear of the disk, so there is little risk of data loss from abrasion.

A brochure on the Philips Compact Disk ROM ("read only memory" - i.e., accessible to "read" data from, but not to "write" data on) states that their compact disk stores up to 600 megabytes of data, representing over 200,000 pages of text, or more than 1,000 images (such as screen size copies of maps, wills, photographs, or any other original documents), or hours of spoken text, or any combination of these!

A Digital Equipment Corporation brochure about CD ROM (Compact Disk Read Only Memory) cited in the same GC issue says about the same: 600 megabytes storage, equal to 200,000 single-spaced typewritten pages of text, 1,200 microfiche cards, 1,600 floppy disks, or 46 days of data transmission at 1,200 baud (i.e., bits per second, a measurement of data transmission speed).

GC notes from an October 1984 article in Electro-Optics Magazine that at that time over 50 firms worldwide had taken licenses to build compact disk players from the co-developers, N.V. Philips and Sony. These are the same disks that are rapidly overtaking "old fashioned" phonograph records for high fidelity music reproduction, but their use is not only for storing digitized music. With proper indexing, any word of the 100,000,000 on a \$2.70 compact disk can be located in a few seconds!

According to GC, the Technics Division of Matsushita Electric announced for December 1985 delivery the SL-P15, a \$1,500.00 multi compact disk player. Each "magazine" (disk holder) will hold 51 disks. This would give you access to 13.5 million pages of material, or some 45,000 volumes at 300 pages per volume, with access time under 20 seconds to any track on any disk, in a machine 16" x 16" x 8" - about the size of a bread box!

Along with the editor of Genealogical Computing, Paul Andereck, at the 1985 Optical Disc Read Only Memory Forum in Arlington, Virginia, was Ken Suzuki, a Latter Day Saints Genealogy Department representative, inspiring Mr. Andereck to ponder, "If one CD ROM disc can hold the data that a stack 12 1/2 feet high of IBM-PC diskettes can hold, I wonder how many Mormon microfilm rolls will fit on one?"

Genealogical Computing is published quarterly by Data Transfer Associates, Incorporated, P.O. Box 2367, Fairfax, VA 22032. One year subscriptions are \$25.00; multi-year subscriptions are \$22.50 per year.
